

Manufacturing Improvement Project

You have identified an area for improvement in your manufacturing function, now let MAS YH help you enhance your performance through a **Manufacturing Improvement Project!**

Who Can Apply?

Manufacturing companies based in the Yorkshire & Humber region, who wish to make improvements within their manufacturing function.

What Types of Projects Are Eligible?

Manufacturing Improvement Projects are 75% grant subsidised and offer in-depth, practical support to implement operational or strategic change. Receive on-site support from experienced specialists to help your team achieve measurable performance improvements. Increase the gross value added in your business and boost your performance in one or more of the following areas (dependent on your project objectives): equipment effectiveness, on time delivery, people productivity, labour productivity, business investment, defect rates, stock turns, space utilisation and safeguarding of jobs.

Areas where we can help include:

- Lean Manufacturing Techniques
- Practical Production Engineering Expertise
- Materials
- Standards (interpretation and reference access)
- Manufacturing Control
- Factory Control
- Manufacturing Operations
- Strategic Manufacturing Management
- Quality & Environmental Management
- ICT in Manufacturing
- Product Design for Assembly

Who Will Conduct the Project?

The MAS Manufacturing Improvement Project is delivered by an experienced manufacturing professional who will help you to implement specific improvements to enhance your business performance. Benefit from a **75% grant subsidy** towards a MAS Manufacturing Improvement Project. *Eligibility & Conditions Apply.
